## Technical Professional, Associate Cementing # 65222

We are looking for the right people — people who want to innovate, achieve, grow and lead. We attract and retain the best talent by investing in our employees and empowering them to develop themselves and their careers. Experience the challenges, rewards and opportunity of working for one of the world's largest providers of products and services to the global energy industry.

### Job Description

- Learns to perform the safe and efficient delivery of all cementing services including, but not limited to: cement testing at the laboratory; bulk and chemical handling, blending and sampling at the bulk plant and chemical warehouse; equipment maintenance and testing in the maintenance workshops; rigging-up, equipment preparation and pre-job checks, job calculations, bulk handling, cement and spacer mixing, QA/QC checks, post-job checks, ticketing and rigging down at the rig site.
- Learns how to develop the cement design that meet customer requirements and Halliburton's commercial expectations following Halliburton Management System procedures and using Halliburton simulation software.
- Learns to determine lab testing requirements and testing conditions, job preparation, and interpreting well site data for post job analysis.
- Learns how to tailor solutions to meet customer requirements and Halliburton's commercial expectations, considering both the price of the solution to the customer as well as the total cost to Halliburton to deliver it.
- Learns how to develop relationships with customers and professionally communicate solutions to generate additional business opportunities.
- Learns how to forecast chemical and casing equipment requirements such that orders are placed in sufficient time for deliveries to meet forecasted job dates.
- Learns how inventory is managed.

### Your Profil

- Completion of an undergraduate degree in a Science, Technology, Engineering or Math discipline required.
- Fluent language skills in German and English
- Independent and well-organized way of working
- High level of commitment and initiative, Flexibility and readiness for overtime and weekend assignments
